Welcome to the 3rd 9 weeks of the school. If your child's grades are not to your satisfaction for the first two nine weeks of school, you have two more nine weeks to help me get your child ready for second grade. The task is possible, but I need your help with homework and class behavior. We still have lots of skills in language arts and math to cover before May. I will let you know how well your child performed on the end of the first semester Map and Star Early Literacy tests that were given at the end of 2015 and the beginning of 2016.

### Parent/s :

Please make sure homework is completed every night and returned to school the next day. Please go over signed papers with your child, correcting and re-emphasizing all errors. These are the skills your child will need to do well on tests in subject areas weekly. Thanks
