What We Are Learning In Science and Social Studies...

3. Predict characteristics, structures, life cycles, environments, evolution, and diversity of organisms.

a. Compare and contrast the diversity of organisms due to adaptations to show how organisms have evolved as a result of environmental changes. (DOK 2)

- Diversity based on kingdoms, phyla, and classes (e.g., internal/external structure, body temperature, size, shape)
- Adaptations that increase an organism's chances to survive and reproduce in a particular habitat (e.g., cacti needles/leaves, fur/scales)
- Evidence of fossils as indicators of how life and environmental conditions have changed
